CHECK ARTIST HELD TO GRAND JURY

Man Accused of Faking One of J. A. Harlan's Checks. Given Preliminary Hearing This Morning.

J. Howard, arrested yesterday for forgery, received a hearing in Prisoner of the day this morning and was bound over to the grand jury by Justice Craig under bond of \$500. Felix Lemo, who was arrested with Howard on the same charge, was acquitted as no evidence further than association with the alleged forger could be found against him.

Howard was working for J. A. Harlan contractor of the new Alford building which is being erected at First street and Plaza Avenue. He claimed himself to several blank checks bearing Harlan's printed name and making out at least one of the checks presented to spend it.

Danith, a saloonkeeper on First street, discovered that the check for \$12.50 which had cashed was forged, just as Harlan, missing several of his checks, noticed Howard and Lemo standing on a nearby corner counting their change. They were arrested and held in the city jail last night.

Howard's defense was incoherent. He contradicted himself in each statement he made, and did not return to his original statements when the discrepancies were pointed out to him by the court. He said he was not in the saloon, that he was arrested at the saloon, and that he was playing a game of cards when arrested. He also denied all knowledge of the check on the testimony of Danith and Harlan he was bound over.

ACTIVE STOCKS GO DOWN TODAY

Decline Is Caused By Institution of Proceedings Against Wire Trust By Government; Close is Steady.

(By Evening Herald A. P. Leased Wire)

New York, June 30.—The institution of anti-trust proceedings against wire manufacturers was the governing factor in the movement of stocks this morning. Declines of a point or more were recorded among the 45 active stocks. United States Steel was less active than had been expected, however, and its loss was confined to a fraction. Irregular recoveries were not well sustained in the second hour, the higher prices inviting fresh selling which was most effective in the Harriman stocks and United States Steel. Brooklyn Transit was bid up a point in the subway awards and there was also a large absorption of the Erie stocks at rising prices.

Bonds were irregular. The market closed steady. Prices hardened in the closing hour on a slight demand from the shorts.

Chicago Grain.

Chicago, June 30.—Bulish figures on the condition of both spring and winter wheat helped lift the market today. According to a leading authority the percentage for winter wheat is 79.3 as against 80.4 last month. The spring crop was put at 79, compared with 93.6 the corresponding time a month ago. September started at 80.3-80.82-5-8, a gain of 1-8.9-1.4c to 3-8.9-1.2c, and rose to 80.7-80.8. The close was weak, although 5-8c up for September.

Corn was sharply higher on account of hot weather and because of the extraordinary drop in condition officially reported in Oklahoma, 50.9 per cent, compared with 82 last month. Besides the crop of the United States as a whole was said to show the lowest July condition in years. September opened 5-83.9-5-4c to 1-88.1-1.1c up at 61.3-4.9-61.1-4c, and advanced to 61.3-4c. The close was easy at a gain of 1-1.8c. September oats started 1-4-4.3-8c to 1-2.5-5.8c higher at 44.5-4.6c, and ended around 44.5-8.44-3.4c.
